If you want custom pages to suit your current collection, be it **Papua New Guinea, Fiji, Solomon Islands** or **Australian** issues we are able to work with you to produce a professional display album that presents those unique items not normally covered by standard publications. Give us a call to discuss your needs.

Custom Order Pages						
LAK CUS	A Custom Order page will be designed using a custom order sheet to identify title, stamp description and footer text requirements, together with size and layout requirements for the stamps to be displayed on the page. All material will be represented in a manner consistent with the Album Pages to ensure a professional and holistic finish to your collection. Pages will be tagged with the "Code" located on the bottom left or inside margin of the page. The code reflects the section into which the page will be inserted.					NOW
	The cost of producing a custom page is a factor of the initial communications, the set-up, the individual attention to mounts given, and the cost of custom printing. The cost is reduced if there are multiple pages. To assist in calculating the cost there is a basic set-up fee, a pages fee, and a fee per stamp block on each page. For example, if you had 3 pages with 6 stamp blocks on each page the cost would be \$12 plus 3x\$8 plus 18x\$0.50. The total would be \$45.00.	Basic Set-up fee	\$	12.00		
		Cost per page	\$	8.00		
		Cost per stamp block	\$	0.50		

***SPECIALIST pages** are continually being developed. Please check with us for availability.

***CUSTOM pages** can also be produced on request.
